LeetCode

Portfolio

Summary

Computer Science undergraduate with experience in full-stack development, machine learning, and software engineering. Skilled in building scalable web applications using React, TypeScript, Python, FastAPI, PostgreSQL, and modern development tools. Strong foundation in Data Structures & Algorithms, object-oriented programming, and system design with hands-on experience and contributing to real-world software projects.

Education

Jaypee Institute of Information Technology (JIIT), Noida — B.Tech in CSE
CGPA: 7.0 / 10

2023 – Present

St. Dominic Savio School, Lucknow, Uttar Pradesh — Class XII (ICSE)
Percentage: 88%

2022

Technical Skills

- **Programming Languages:** C++, Python, JavaScript, TypeScript, SQL
- **Frontend:** React, Next.js, HTML, CSS, Tailwind CSS
- **Backend:** FastAPI, Node.js, REST APIs
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Core CS:** DSA, OOP, OS, DBMS, Computer Networks
- **AI/ML:** Scikit-learn, Pandas, NumPy
- **Tools:** Git, GitHub, VS Code, Figma, Streamlit

Experience

Data Science Intern — The Developers Arena

Jan 2026 – Feb 2026

- Performed data cleaning, preprocessing, and transformation on real-world datasets.
- Built predictive machine learning models and evaluated performance using appropriate metrics.
- Conducted exploratory data analysis to identify trends, patterns, and actionable insights.

Projects

FraudLens — Credit Card Fraud Detection System ([Demo](#) | [GitHub](#))

Python, Pandas, Scikit-learn, Streamlit

- Developed a machine learning-based fraud detection system to identify potentially fraudulent credit card transactions.
- Performed data preprocessing, feature engineering, and handled imbalanced datasets to improve model performance.
- Evaluated classification models using Precision, Recall, and F1-Score, and built a Streamlit dashboard for fraud analysis.

SmartGym AI — AI-Powered Fitness Platform ([Demo](#) | [GitHub](#))

React, TypeScript, PostgreSQL, MediaPipe

- Developed a full-stack fitness platform featuring exercise tracking, posture correction, and personalized diet plan.
- Built backend APIs and database functionalities for user, workout, and exercise data management using PostgreSQL.
- Integrated MediaPipe Pose and machine learning models for real-time exercise recognition and posture analysis.

Certifications & Achievements

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional.
- Solved 200+ DSA problems across LeetCode and competitive programming platforms.
- Achieved a 1254 rating on CodeChef. ([CodeChef profile](#)).
